## THE SITUATION AT REGINA.

Eastern Opinions—A Maniac at Battleford—Jesse James at Medicine Hat—"Ben Hur" at Winnipeg—Masonic Ceremonies—Opening of the Electric Railway.

REGINA, Sept. 8.—There is nothing new in political circles. The majority of the members of the Assembly have returned to their homes. The members of the executive are here. Hamilton let for the West on Tuesday morning.

## OPINIONS IN THE EAST.

TORONTO, Sept. 6.—The *Globe* says editorially: "Lieutenant Governor Royal, in proroguing the North-West Assembly, has acted so unconstitutionally that surprise will be felt that a parliamentarian of so much experience could be capable of so serious a blunder. Under the circumstances, Cayley, who seems to be the head of the new executive, should have adopted one of two courses. He should have resigned or asked the governor to dissolve the house. Failing to do this, the governor should have insisted upon the constitutional course. But instead of this, he consented to proroguing, virtually continuing in office an administration that has not shown itself possessed either of confidence of the legislature or the people of the Territories. Royal is charged in a memorial dispatched to Ottawa, and signed by thirteen members of the Opposition with acting as a partisan, and in the light of all the conclusion is irresistible that such is the case."

The *Mail* says: "It must certainly be said of the North-West Governor that he has very original ideas on the subject of the constitution. If the Queen were to prorogue parliament with business unfinished, thus protesting in effect a cabinet which could not live were parliament to continue in session, there would be a revolution."

## A MANIAC AT BATTLEFORD.

BATTLEFORD, Sept. 1.—A half-breed woman named Tate, who lived in a tent on the banks of the Saskatchewan, was discovered to be laboring under acute mania and taken to the mounted police barracks, where she will be detained until the pleasure of His Honor the Lieutenant Governor is known. Before being arrested she had cut off most of her finger nails, but seemed quite amenable to the pain.

## DUTCH COURAGE.

MEDICINE HAT, Sept. 2.—A bookman named Mandervin, better known as "Reddy," gave an exhibition of "Dutch courage" at Camrose on Sunday night. He had been left behind at Gleichen by Conductor Gove for being drunk and therefore incapable of performing his work. On his arrival at Camrose he entered Gove's room, and at the point of the revolver drove the brakeman outside, then turning on Gove he threatened his life. His playing at Jesse James, however, was rudely cut short by a mounted policeman, who locked him up. Next day he was tried and got \$20 and costs.

## LEW WALLACE TO LECTURE.

Winnipeg may have a chance to shortly hear the renowned lecturer and celebrated author of "Ben Hur," General Lew Wallace. He will pass through Winnipeg in a few weeks and his agent has written to a gentleman in that city asking if arrangements could not be made for a lecture. The matter is now under serious consideration.

## MASONIC CEREMONIES.

Winnipeg, Sept. 6.—The evening of the 2nd of Sept. 2nd degree ceremony, held at Manitoba Lodge, No. 32, at 8 o'clock, presided by J. J. Adams, Esq., of Hamilton, Lieutenant Governor of the Dominion of Canada, conferred the 30th, 31st and 32nd degrees of the

order on several Masons who had been chosen to receive this distinguished honor. After the consistory, the lodge of perfection, 14th degree, was opened and a degree exemplified for the inspection of the visiting brother.

At the conclusion of the ceremonies, Mr. A. G. Morgan entertained about twenty of the members of the order at dinner at the Manitoba.

## OPENING OF THE ELECTRIC RAILWAY.

WINNIPEG, Sept. 6.—The official opening of the new electric street car line on Main street took place yesterday. Manager Campbell has issued a general invitation to citizens, members of the city council, local legislature and the press, to be present, and when the engineer turned on the current the car and trailers were filled with Mr. Campbell's guests. The start was made from the station at 2:40. The run was made from the city hall to Broadway, from there to the C. P. R. depot and then back again to the city hall, where a photograph of the car and the passengers was taken by Steele & Wing for the company. Congratulatory speeches were delivered by leading citizens.

## THE LAWN TENNIS TOURNAMENT.

The Lawn Tennis Tournament now in progress has been somewhat delayed by the unfavorable weather.

The following is the result of the playing to date—

GENTLEMEN'S SINGLES (JUNIORS).  
Moller beat Munns 6-0, 6-1.  
Potter beat Slater 6-1, 6-1.  
Rollo beat Robertson 6-4, 6-1.  
Hitchcock beat Christie 6-5, 6-2.  
The following won by default: Fisher, McDonald and Grant.

LADIES' SINGLES (JUNIORS).  
W. Burnett beat Mrs. Annable 6-5, 6-0.  
Mrs. Robinson beat Miss Stevenson 6-3, 6-1, 6-5.

The following won by default: Miss Ostrander, Miss Matheson and Miss Kettle.

LADIES' SINGLES (SENIOR).  
Miss Smith beat Miss Hollis 6-1, 6-3.  
Miss Alexander beat Miss Barlee 6-1, 6-3.

GENTLEMEN'S SINGLES (SENIOR).  
Barrett beat McDonald 6-4, 6-5.  
Cameron beat Hale 6-1, 6-0.  
Caldwell beat Lang 6-6, 6-8, 6-4.

In Christie vs. McCulloch, Christie won by default.

Most of the matches so far have been keenly contested. Some of the junior players have shown some excellent play, and next year will doubtless make good showings.

GENTLEMEN'S DOUBLES (JUNIOR).  
Potter and Grant beat McDonald and Munns, 6-1, 6-3.

The following won by default: Rollo and Rutherford.

MIXED DOUBLES (SENIOR).

Lang and Miss M. Alexander beat Caldwell and Miss Smith, 6-0, 6-1.

The second draw resulted as follows:

GENTLEMEN'S SINGLES (JUNIOR) SEPT. 9.  
Fisher vs. Rollo.  
Hitchcock vs. Moller.  
Potter vs. Christie.  
Macdonald vs. By.

LADIES' SINGLES (SENIOR) SEPT. 10.  
Miss Kettle vs. Miss Ostrander.  
Miss Burnett vs. Mrs. Robinson.  
Miss Matheson vs. The winner of Miss Annable vs. Mrs. J. Annable.

LADIES' SINGLES (SENIOR) SEPT. 10.  
Miss M. Alexander vs. The winner of Miss Alexander vs. Mrs. Jeffard.

GENTLEMEN'S SINGLES (SENIOR) SEPT. 12.  
Alexander vs. Calder.  
Crosby vs. Crograve.  
Barrett vs. By.

GENTLEMEN'S DOUBLES (JUNIOR) SEPT. 13.  
Crograve and Calder vs. Lang and MacDonald.

MIXED DOUBLES (SENIOR) SEPT. 14.  
Lang and Miss M. Alexander vs. The winner of Alexander and Miss Alexander vs. Crograve and Mrs. Jeffard.  
Macdonald and Miss Hollis, 6-2.

MIXED DOUBLES (JUNIORS) SEPT. 15.  
Haller and Mrs. Robinson vs. Grant and Mrs. Ostrander.  
Vellie and Miss Burnett vs. Winers of Rollo and Miss Annable vs. Fisher and Mrs. Stevenson.  
Munns and Mrs. G. M. Annable, By.

## THOMPSON THE MAN.

## QUARANTINE REGULATIONS.

Financial Statement—Stars and Stripes Pulled Down—Under British Protection—Baptiste is Dead.

OTTAWA, Sept. 5.—Everything seems to indicate the early retirement of Premier Abbott. The change is foreshadowed by an inspired editorial today in the *Citizen*, government order, which concludes as follows: As for the successorship to the office of premier there can be but one opinion—Sir John Thompson is the man. Though only seven years in parliamentary life, Sir John is recognized as a statesman of the weightiest calibre, deep in knowledge of human nature, of human affairs, of extensive reading and accurate and varied information, an orator and tactician above all, he is one in whom the country has faith, a faith that has been grown steadily during his leadership of the House of Commons in the past two sessions. Seven years ago he was called to be Minister of Justice, and at once took a front place in parliament. Subsequently his talents marked him out for his present post as leader, and therein he has not disappointed public expectation. Now again the public opinion selects him, this time as our next premier, and there is no reason to doubt that he will fill that office with the same skill and success which have characterized his labors throughout life.

## FINANCIAL STATEMENT.

OTTAWA, Sept. 4.—The financial statement for the fiscal year 1891-2, ended 30th June last, shows an excess of revenue over ordinary expenditure amounting to more than a quarter of a million dollars. The revenue was as follows: Customs, \$20,501,136; excise \$7,929,345; post office, \$2,653,413; public works, \$3,574,895; miscellaneous, 2,251,870; total, \$36,903,262. Expenditure, \$36,629,803; surplus, \$273,459. The revenue and expenditure for the month of July were as follows: Revenue, \$2,256,848; expenditure, \$2,149,528; surplus, \$507,320.

The department of finance received advices from England which indicate an opportunity for a very profitable trade being done this winter by Canadian farmers in exporting hay to the old country. Sir Charles Tupper has written the minister of finance enclosing letters received from Bristol in reference to the opening that will exist during the autumn and winter for Canadian hay.

## CANADA'S POOR PROVINCE.

MONTEREAL, Sept. 3.—As if to demonstrate the inefficiency of the Grosse Ile quarantine station, the steamship *Thordale* came into port Thursday from Ilyle, in the Philippine Islands, with a cargo of sugar without stopping at the station at all. Dr. Laborge, medical health officer, boarded her and learned that she had come up the Red Sea and through the Mediterranean, but fortunately there was trace of infectious disease of any kind. The captain was a stranger in the country, and was unaware that he had to stop at Grosse Ile, and did not know there was a quarantine station there. The pilot ought to have informed the captain, but the captain says he did not.

## STARS AND STRIPES PULLED DOWN.

MONTEREAL, Sept. 5.—The "White Squadron" was performed here to-night by a New York opera troupe. In it there is a congress of admirals representing all nations. When the American admiral with a squad bearing the stars and stripes appeared the audience in the gallery hissed him and when he appeared before the curtain with other actors to acknowledge applause missiles were thrown at him. The stars and stripes displayed with other flags in front of the theatre was pulled

down by excited citizens and dragged through the streets and destroyed.

## UNDER BRITISH PROTECTION.

SAN FRANCISCO, Sept. 5.—News comes from the South Seas of a coup by the British government in the South Pacific waters by the seizure of the Gilbert Islands, a small and valuable group under the equator. The agent of her British Majesty was the warship *Royalist* in command of Capt. Davis, significantly styled "deputy commissioner." The *Royalist* put in to the lagoon that forms the harbor of Butaritari, the principal island of the group on Sunday, June 12. The boat landed Davis and interpreters and several lieutenants. They proceeded to the palace to King Nanteriate Teburuima and the public conference read a proclamation stating that England had resumed her protectorate over the islands and forbidden residents furnishing fire arms to the natives.

## BAPTISTE IS DEAD.

Baptiste, the well-known Canagawaug Indian who for the last twenty-five years has piloted boats down the Lachine Rapids, died on Monday of dropsy. His age was 82.

## SULLIVAN WAS NOT IN IT.

Corbett Knocks the Heavy-weight Out in the Twenty-third Round.

NEW ORLEANS, Sept. 7.—Fight started to-day at 9:05. The ball opened with a nice exhibition of sparring, Sullivan getting a good blow in on Corbett's face in second round.

In the fifth round Sullivan was badly battered. Corbett landed a terrific blow on Sullivan's left eye completely closing it. Sullivan was saved from severe punishment by time being called.

Nothing of interest occurred until the sixteenth round, but Corbett had the best of the fight throughout.

In the sixteenth round Sullivan was pushed to the ropes several times, bleeding freely.

In the eighteenth round Sullivan struck Corbett below the belt. A foul was claimed. Corbett was not injured.

From this point to the finish Corbett had things his own way. He gave Sullivan a terrific pummeling. Whenever he scored with his right hand he followed like lightning with his left.

Sullivan succumbed in the twenty-third round.

## SCHOOL BOARD.

Minutes of meeting held on August 24. Present Messrs. Baker, Hicks, Sharp, Turnbull and Naimith.

After reading of minutes and communications and adoption of Treasurer's report for June and July.

Naimith—Hicks.—That accounts of J. Bellamy, A. Hicks and Seymour Green be paid.—Carried.

Sharp—Hicks.—That Debenture No. 1, payment due July 19th 1891 principal \$250 and interest \$380 total payments \$630 with interest on this amount until paid; and Debenture No. 2 due July 10th 1891, principal \$100, interest \$152 and total due on coupon and interest from date to Sept. 1st, 1892, on Debentures 1 and 2 be paid.—Carried.

Hicks—Sharp.—That Townsite Trustees be paid all arrears due on Lots 1 to 7 Block 91. Amount \$112.00.—Carried.

Hicks—Naimith.—That secretary notify Town Council that they require balance of \$860.00, amount due them to apply on debentures overdue which have been compounding interest for some time.—Carried.

Hicks—Naimith.—That enquiries be made re renovation of roof of school house which is leaking badly and that the chairman be empowered to take such steps as he thinks necessary, to call for tenders to be in by next regular meeting.—Carried.

Adjourned.

FRIDAY, SEPTEMBER 9, 1922.

## GRAND FORKS CONVENTION

The International Convention at Grand Forks, North Dakota, to discuss reciprocity in the movement of international waterways, was opened on Thursday.

The following resolutions were prepared by a committee for discussion at the convention: "We, the members of the first international reciprocity convention, hereby congratulate the people of the Canadian Northwest and the people of the northwest states of the American United States on the ardent good feeling that exists between them, and the earnest desire for closer business relations, of which this large and representative gathering is strong evidence. Whatever difference may be in the governmental relations of the two countries, we believe that the bonds of sympathy and of mutual interest between the two people here in the Northwest are too strong ever to be broken and are destined to draw us closer together in our social and commercial relations. We are of common ancestry and religion and we are alike attracted to the principles of free responsible government; we desire to trade freely with each other, to know each other better and to stand shoulder to shoulder in the accomplishment of the great work of advancing the civilization of the American continent. With these objects in view we hereby adopt the following resolution as a full expression of our opinions:

"That in the opinion of this convention the conditions of the great Northwest on both sides of the international line make it desirable that all restrictions in the way of trade between the two countries should be removed as far as possible, the same to be done consistent with the revenue requirements and other interests of the two nations at large."

"Resolved: That in view of the rapidly increasing demand for further facilities in the transportation of the products of the new Northwest on both sides of the boundary line to the sea this convention is of the opinion that advantage should be taken as soon as possible of the neutral and convenient outlet via Hudson Bay, and that every encouragement be offered to the promoters of the Hudson Bay railway. Resolved, that the construction of railways across the international boundary line wherever demanded by the universal necessity of the people of the two countries should not be prohibited or hindered by governmental restrictions or exclusive privileges to particular corporations."

Resolved, that inasmuch as the Red river of the north and the Columbia river are international streams and important natural waterways, the improvement of their navigation should be proceeded with by both the Canadian and the United States Governments, under some mutual agreement as to the methods and expenses, whereas the continued growth and prosperity of the great Northwest lying on both sides of the forty-ninth parallel depends upon the cheapest possible transportation to and from the markets of the old world—therefore be it resolved that we favor the extension and enlargement of existing waterways and the construction of additional means of water communication from the great lakes to the sea, and that the commerce passing through said channels, whether natural or artificial, should be free of all tolls."

## THE BRIBERY CASE.

A MEMBER OF THE EXECUTIVE  
TYPE CHARGED WITH  
BRIBERY.

HIS ATTORNEY SUMMONSED BY  
A CHARGE OF CRIMINAL  
LIBEL.

Proceedings Taken Against Daniel  
Mowat.

The political situation at Regina has assumed an aspect that is far from satisfactory or enviable. A report was circulated during the latter part of last week to the effect that Daniel Mowat, member for South Regina, had endeavored to bribe William Sutherland, member for North Qu'Appelle.

Mowat proceeded against Sutherland on the following charge:—

"That William Sutherland of Fort Qu'Appelle, in said Judicial District, a member of the said Legislative Assembly, on the first day of September 1922, thousands eight hundred and ninety-two, at the Town of Regina, in said Judicial District of Western Assiniboia, did lawfully and maliciously write and publish a certain false and defamatory libel containing diverse false, malicious and defamatory matters concerning him the said, Daniel Mowat, that is to say:—

The said Daniel Mowat (naming said informant) who is a member of the Legislative Assembly of the Territories and a member of the Executive Committee (naming the Committee of the Assembly to aid and advise in the Government of the Territories of which Committee the said informant was a member) did at Regina attempt to influence his vote (naming the vote of him, the said William Sutherland, a member of the said Assembly for North Qu'Appelle) that the sum of \$250 would be placed in the estimates (naming certain resolutions about to be submitted to said Assembly) respecting the appropriation of the public money of the Territories and voted to me (naming him, the said William Sutherland) as Deputy Speaker (naming the Deputy Speaker of said Assembly) if I (naming him the said William Sutherland) would vote for and support the said Executive Committee in the Assembly; the said William Sutherland at the time being wrote and published the said libel well knowing the same to be false."

The preliminary trial came up on Friday evening before Henry LeJeune J. P. D. L. Scott Q.C. appearing for the prosecution and Messrs. F. W. G. Haultain and T. C. Johnstone for the defendant. The court room was densely crowded. The press of Manitoba and the Territories was largely represented.

The first witness called was Mr. Haultain.

Mr. Scott: Had you in your possession within the past two days a document purporting to be signed by Mr. Sutherland?

Mr. Haultain refused to answer the question on the grounds: Firstly that such a document in the possession of a solicitor would be a privileged communication between his client and himself; and secondly, that by answering the question he might incriminate himself.

Mr. Scott quoted authority to show that a private communication between a solicitor and one who was about to commit a crime was not privileged.

To this Mr. Johnston replied that the communication must necessarily have been after the commission of the act and that, therefore Mr. Scott's citation did not apply.

Mr. Neil was the next witness. He knew the accused, but not his handwriting. He had not in his possession during the past two days any document purporting to be signed by Mr. Sutherland.

Messrs. Tweed, Ross and Oliver M. L. A's were examined in turn and each testified that he had not seen during the past two days any document purporting to be signed by Sutherland.

After some unimportant cross-examining between the counsel, the court adjourned until ten o'clock next day (Saturday).

At the appointed time on Saturday the court opened.

Haultain was again asked "Had you within the past two days a document in your possession purporting to be signed by the accused?"

Johnstone argued that if any offence had been committed it had been committed by the handing of the document in question and that "therefore as soon

as the document came into Haultain's possession it was privileged. No proof of the existence of an incriminating document had been adduced. If the existence of the document were proven it would tend to incriminate the witness. Therefore he could not be compelled to answer.

Scott said the plaintiff did not know what the libel was but wanted to find out. The magistrate could not receive evidence as to the truth of the matter charged.

Haultain said that the alleged libel on Mowat charged him with committing a most serious offence. Supposing the alleged libel to be true the facts having come before Sutherland it was his duty as a public representative to have an investigation held. This he prepared to do and consulted him (Haultain) as to the means of doing so. He was prevented by the hasty proceeding of the Assembly from bringing it up there. Haultain read a decision by a chief justice of England in an exactly parallel case in which it was held that in case of an act which up to a certain point would not be criminal and beyond that point would be criminal it was to be presumed that the consultation was for the purpose of avoiding and not of committing a criminal offence and therefore was privileged.

The magistrate adjourned his decision on the point.

T. C. Johnstone was called. Had taken as notary a declaration from Haultain signed by Sutherland on Thursday. Could not swear as to the contents of the document, as he was busy at the time. He glanced at the last lines and believed it related to the present charge but was not sure.

J. J. Young manager of the *Leader*, saw Haultain at his office on Thursday afternoon. He handed Haultain a document which he had previously received from him. The document was signed by Wm Sutherland and by T. C. Johnstone as notary. He believed the document to be authentic. Could not swear to the signatures as he had never seen either of the men sign their names.

Scott asked as to the contents of document.

Johnstone objected to the question. Until the signatures had been proven the court was not entitled to assume that the document was an original and therefore could not consider its contents.

Young continued. The tenor of the document was that Daniel Mowat had attempted to bribe William Sutherland by promising him that the sum of two hundred and fifty dollars would be placed in the estimates for him for acting as deputy speaker, if he would support and vote for Mr. Mowat's party, or words to that effect.

Honeyman, reporter on the *Leader* staff had read proof of a document containing matter similar to that of the charge. He had glanced at the copy but not at the signatures. Did not know what became of the copy. Did not remember on what kind of paper it was written.

After the adjournment for dinner His Worship said he had looked up the case cited by Mr. Haultain and decided that he must answer the question as to the possession of the alleged libellous document.

Haultain refused to answer the question.

His Worship said that Mr. Haultain's refusal to answer might impose a very disagreeable duty upon him but would avoid it by leaving the matter to a higher court.

Haultain asked if it was the intention of His Worship to examine the informant.

He contended that it was the duty of an investigating magistrate to get all the information possible relating to such an important case as this. That it would be very proper for the accused to deny the charge contained in the alleged libel. That he must allow himself to lay an information and then leave it an open question whether any wrong had been done to him. That in the interests of truth and justice the accused should testify and either admit or deny the alleged libel.

Scott objected to any such examination. The truth or falsity of the said libel was not the question. The law presumed that defamatory matter was false until it was proven to be true. Johnstone said that by the contention of the counsel for the prosecution, the defense must prove what the rules of the court prevented them from proving by not permitting the accused to give evidence. A crime against Society had been committed by either the accused or the accuser, and Society which His Worship represented demanded that Mowat should go into the witness box, and give evidence as to the truth or falsity of the charge. Unless the accused was compelled to give evidence the accused was at his mercy, even if the allegation of bribery was true. It could be to Mowat's own credit if he would testify in his own behalf, unless Mowat went into the box, the allegation against him must be presumed to be true.

Scott replied hotly that his client should not give evidence now as this was not the proper time. His worship had no right to hear any evidence pro or con. The complainant was in his (Scott's) hands and he was not going to be put in the box.

His worship then summed up. All the witnesses had been reticent. The only evidence was that of Young and Johnstone, which with Haultain's refusal to testify as likely to incriminate himself, showed that evidence existed and was sufficient to justify him in committing the accused to a higher court.

On the question of bail Scott said that his client had not taken proceedings for the purpose of punishing Sutherland but to clear his own character, and therefore no objection would be made to the acceptance of nominal bail. And if Sutherland did not appear for trial his client would be satisfied.

Mr. Haultain reminded Mr. Scott that it scarcely lay within the province of the counsel for the prosecution to say whether bail should be accepted or not, but rather with the magistrate.

Sutherland was required to give bail to the amount of \$200 and a surety for \$200 which was promptly furnished. The court then dismissed.

## HAULTAIN SERVED WITH A WRIT.

Mr. Haultain has been served with a writ in an action for \$5000 damages for libel on Mowat. The libel as set forth in the writ is as follows:—

"I hereby charge Daniel Mowat, member of the Legislative Assembly of the Territories for the District of South Regina and a member of the Executive Committee with having on August 31st, 1922, at Regina attempted to influence the vote of William Sutherland, a member of the said Assembly for the District of North Qu'Appelle, in the said Assembly by promising the said Sutherland that the sum of \$250 would be placed on the estimates (meaning certain resolutions about to be submitted to the said Assembly) respecting the appropriation of the public money of the Territories and voted to the said William Sutherland as deputy speaker (meaning the position of Deputy Speaker of the said Assembly) if he would vote for and support the said executive committee in the Assembly."

This document was signed by Haultain and handed to a third party in Mowat's presence on Thursday night for the purpose compelling Mowat to bring on an action in which Sutherland could give evidence, which was impossible when a criminal action was taken against him (Sutherland).

## EDITORIAL NOTES.

An article in a denominational paper on the evils of cigarette smoking is calculated to remind the thoughtful reader that once upon a time an enlightened Government in the province of Ontario proposed a law making this pernicious practice on the part of minors felony. But the law observing faculty of the rising generation in those days was such that no need ever arose for enforcing even the modified pains and penalties finally provided by the statute hereinbefore described, and the people who occupied the land lived happily forever and ever after for they had great faith indeed.

The "continent to which we belong" is, at the present time, a very keen competitor with Canada for the flour trade. Says The Trade Bulletin: "American millers are still competing for Newfoundland trade, a St. Louis firm having offered straight roller flour at \$3.90 cwt St. John's, although a short time since the same firm wanted \$5.10 and 4.15. Ohio millers are also bidding for the same trade, and cutting prices in order to secure it." Instead of hungering for our products, our neighbors are in many lines hanging to cut us out of the trade we have.

The Montreal *Trade Bulletin* of Aug. 26, says: "The freight market is decidedly easier, engagements having been made for Liverpool at 1s 6d. For

Glasgow 1s 9d is asked, but it is said that 1s 6d would be taken. London is quoted at 2s 3d, engagements having been made at that figure. The Bristol rate is 2s 3d. There has been quiet a break in cattle freights through one of our shipping agents shipping down the price to 30s. But it is said that this rate may be up again to 45s next week. Deals are quoted at 40s, and it is said that figure has been shaded. Butter and cheese 25s to Liverpool, Glasgow and London, and 30s Bristol. Eggs have been engaged at 15s to Liverpool. Engagements of sack flour have been made at 12s 6d to 12s 9d for Aberdeen and Leith; at 11s 3d for Glasgow and Bristol; 10s 6d to 10s 9d for London, and 10s for Liverpool."

Interesting Paper by Mr. W. Watson.

BUTTER AND CHEESE.

At recent session of the Dairy-men's Association held at Regina an interesting and suggestive paper on "Will it pay to start and operate cheese or butter factories in the North West," was read by Mr. W. Watson, of Moose Jaw.

He commenced by saying that the question might seem superfluous to those who were acquainted with the success of such institutions on the co-operative plan in Ontario and the States. But the same reasoning would apply to the question of spring and fall ploughing, which in the east were successful but in this country very often unsuccessful. He then proceeded to discuss his subject, not by results in the east but in the light of our peculiar climatic and other conditions and circumstances.

First, then, as to cheese factories, in which Mr. Watson has had a large practical experience, he said:

I am reluctantly forced to the conclusion that it would not pay yet or for some years to come to start and operate cheese factories in this part of the North West.

What are the requisite conditions of success?

1st. A community or neighborhood sufficiently numerous and closely settled convinced that it will pay and determined to give it a fair trial.

2nd. A sufficient number of cows within a radius of from five to seven miles of the factory to ensure a sufficient quantity of milk to pay men and teams to haul it once a day at maximum of one cent a gallon or one cent per pound of cheese. Four hundred cows are necessary to start a cheese factory in Ontario, 600 in the North West. Cost of building and machinery is greater here.

3rd. And most important in the North West, that calves can be raised properly and the increase of our stock not be interfered with.

4th. Labor and factory furnishings such as cheese cloth, rennets, coloring, cheese boxes, etc., at reasonable prices and hogs in sufficient numbers to use up all the whey if not carried home in the cans to the patrons.

I don't know of any settlements west of or including Regina that are sufficiently closely settled and have the necessary number of cows, convinced that it will pay, and determined to give it a fair trial. It is difficult to convince farmers that cheese will pay when they can get an average of 20c. a pound for their butter and the use of all their milk at home to raise stock and fatten pigs.

It was quite different in Ontario where butter averages under rather than above 12c. per pound cash and 15c. in trade.

The cost of hauling milk to the factory is an important factor, the success or non success of a factory largely depending on it.

The average milk per cow in Ont. is two gallons or 20 pounds per day or 3000 lbs. in the season of six months per cow. A total for the season of 124,800 gallons or 1,248,000 lbs.

The maximum average price for hauling 8000 lbs. (the daily produce of 400 cows) in Ont. is 88 or one cent per gallon per day or \$1,248 for the season of six months.

Could you get it hauled here for \$16.00 or double? In many factories in Ont. the cost of hauling per gallon averages only 60 hundredths or six mills per gallon, or \$7.48 for what would cost \$22.00 or two cents per gallon here. While every farmer has pasture to break it will be hard to get a man and team for less than \$2.50 a day and board himself and team.

Factories in Ont. when milk costs more than a cent per gallon are not successful or permanent, although butter averages only 12c. per pound cash, how can they be successful here when cost of hauling is two cents per gallon and farmers can realize an average of 18 to 20 cents per pound for their butter?

Add to this the cost of building and machinery, which will be nearly double the cost in the east. You can at once see that it will require at least 600 cows to start a factory in the west, while 400 in the east would be quite sufficient.

The larger the factory the cheaper it can be run.

Every year that passes in the North West adds its testimony and emphasizes the necessity of having more than one basket for cures or that mixed farming must be followed by all. The raising of stock, cattle, horses, pigs, etc., is a matter of prime necessity here.

The question then presents itself and will be asked, and very properly asked: if we send our milk to the cheese factory how can we raise our calves and increase our stock?

It was very different in Ont. when they started the cheese factory business:

the country was glutted with stock and prices were low; and stock therefore with thousands of farmers was held at a discount. Here on the other hand prices are high and stock is held at a premium. Cheese makers in Ontario interested in starting cheese factories convinced in a sense many farmers that calves could be raised on sour whey, for whey from the factory is always sour.

[Here Mr. Watson told a story showing that calves could not be raised on sour whey.]

Sour whey mixed with chopped feed will feed pigs but not calves. You can starve them into drinking it; but a close observer can see in their looks and actions that it is noxious to them, and their miserable, haggard, stunted, dwarfed bodies, proves its inaptitude. Even

BACCHOLERS

in the North West, and they are a very numerous and deserving class, although constantly inflicting upon it not actually breaking the command given to our first parents, "Go forth, multiply, replenish and fill the earth," can raise their stock cheaply and will by letting their cows and calves go with the herd all summer and wear and attend to them in winter, make more money with very much less trouble than those who will half starve their calves and send their milk to a cheese factory.

It is before with unfeigned regret that I am driven to the conclusion that it is premature to start the cheese factory system in the North West. True a small cheese factory—say from 25 to 100 cows where there is a good experienced reliable local man and cheese-maker surrounded by a few neighbors who would haul their own milk or take turn about in hauling it—and where the bulk of the cheese could be disposed of or sold in the Territories and therefore at a higher price than can be obtained in the outside markets of the world, can be started with a good prospect of paying all round, if the parties can only surmount the stock raising difficulty.

Driven by force of surrounding circumstances, and the logic of solid facts, from favoring system into the Territories, until the old sections will be occupied, settlers become more numerous, pasture more limited, the rising stock of less paramount importance, and home made butter lower in price; I now come to the consideration of the

BUTTER FACTORY AND CREAMERY

system, a more interesting, because a more profitable subject inasmuch as unlike the cheese factory system, with care, skill and proper business management it can be launched and successfully and profitably carried on without crippling the stock raising industry, with a prospect sure and certain of paying all round, and susceptible of an extension as unlimited as the limitable prairie that surrounds us.

CONCLUDE NEXT WEEK.

BOHARN JOYNTINGS.

The misty weather for the past week has kept the grain from ripening still you can hear the clinks of the binder on all sides. Harvest will be general next week. There is very little smut and the grain will grade No 1 hard.

Ernest M. Bowden, well known to the Pioneer, spent two days in Boharn this week. He expects to reach England in about three weeks after making the circuit of the globe. He has been since last December on the road. Mr. Bowden is making quite a sensation in the literary world.

Master Willie Johnston who has been ill for some time with the fever is progressing favorably.

There is some talk of moving the station at Boharn north of the creek but we think it will be like the southern roads into Regina it will be in the Sweet bye-and-bye when we are not here to enjoy it.

Bennie and Grant Thompson are attending Pioneer school during vacation.

Lewis Arnold is expected in two weeks with a Massey & Sawyer threshing outfit, and as he is a first-class engineer and thresher the people of Boharn will have their threshing done in good time.

Mr. T. Arnold is the happiest looking man in the village, he expects his wife and daughter next week.

Probably the saddest procession Boharn has seen for a long time was Might and Williams returning from the train Tuesday night.

Mr. John Waland a young capitalist from Chatham, Ont., who has been spending a month in Boharn looking for investment has returned to Ontario for the fall.

Mr. Wan. Anderson of the firm of Anderson and Williams is rusticiating in Boharn for a few weeks.

Mr. Charles Stepley has arrived from Florence Ont., on a prospecting tour.

The construction of the trans-Siberian railway is under way, and 12,000 men are employed on the eastern section. Of these 1,500 are convicts, 1,600 exiles, 2,400

RHEUMATISM NERVOUS DISEASES CAN BE CURED

ELECTRICITY, AS APPLIED BY THE OWEN ELECTRIC BELT AND APPLIANCES,

Is now recognized as the greatest boon offered to suffering humanity. It is fast taking the place of drugs in all nervous and muscular troubles, and where every other known remedy has failed. It is Nature's remedy, and by its steady, soothing, Kidney Disease, Rheumatism, Lumbago, Large Back and Hip-pain.

RHEUMATISM

"For twenty years I have been a sufferer from rheumatism, suffering at times the most excruciating pains, from which I could get no relief, for doctors, medicines, rubrication, etc., had no effect on me, and it was only when I got the Owen Electric Belt that I began to get well. I am thoroughly cured, and have been so for months. The belt's action was most marvelous, removing the pain in a few days."—H. SCHMIDT, 12 Vanarsdale Street, Toronto.

NERVOUS DISEASES

Thousands of people suffer from a variety of nervous diseases such as Neural Weakness, Insomnia, Loss of Memory, etc., but the old modes of treatment fail to cure. There is a doctor who would try to accomplish this by the use of drugs is practicing a dangerous and often a fatal experiment. The only known remedial agent is the Owen Electric Belt and Suppository—power, heart, tone and vigor to the system, and restore to healthy action the whole nervous system.

KIDNEY DISEASE

"Your belt has done wonders for me. It stopped the bleeding of my kidneys, which were so bad that I was obliged to leave my home. I am satisfied it saved my life, and I am a wonder to everybody who knows me."—W. J. LEWIS, 1000 St. Patrick, Toronto, Ont.

LUMBAGO AND LAME BACK

"On the 20th of my disability, for everything else failed, I got an Owen Electric Belt for a severe attack of lumbago and lame back. At that time I was so bad I could not stand up without assistance, and I was in the hospital. After wearing the belt for a short time the pain was all gone and I am well to day. I know it was the belt cured me, and I would not be without it for \$500."—W. J. LEWIS, 1000 St. Patrick, Toronto, Ont.

DYSPEPSIA

"For four years I have been a sufferer from indigestion, catarrh and nervous prostration, and spent hundreds of dollars on doctors and drugs without any benefit. I purchased the Owen Electric Belt about four months ago, and have worn it since with the most beneficial results, for I am presently well and free from every trouble."—A. McDougall, Macville, Ont.

WE CHALLENGE THE WORLD

To show an electric belt with the current in the control of the patient as completely as this. We can cure the same by an instant that we would not be able to do by any other means. Other belts have been in the market for years, but none have been so successful as the Owen Electric Belt, and we have been in the market for years, but none have been so successful as the Owen Electric Belt, and we have been in the market for years, but none have been so successful as the Owen Electric Belt.

BEWARE OF IMITATIONS AND CHEAP BELTS

Our Trade Mark is the portrait of Dr. A. Owen embossed in gold upon every Belt and Appliance manufactured by the Owen Electric Belt and Appliance Co. None genuine without it.

soldiers, 300 Russian workmen and 6,000 Chinese and Koreans. "Work is now in progress along the entire line. Everything is ready for the construction of the stations and the fixing of the telegraph posts, and it is expected that sixty-two miles will be completed this autumn."

A Big Robbery.

MONTREAL, Sept. 5.—A remarkably clever robbery was committed in one of the most public streets of the city last evening. A handsome woman went to the door of Nichols & Marler, broker, Notre Dame street, and attracted the attention of one of the clerks. He came out and she engaged him in conversation for five minutes about financial matters and then drove off. When the clerk got back in the office he was horrified to find that thieves had been there and had practically cleaned out the place. It is said that between \$5,000 and \$10,000 were taken.

PASQUA.

Harvest has commenced and will soon be general. The crops are good.

The hay crop has been very good this year. A large tonnage has been put up.

Mr. Allison has just completed a fine residence for Mr. Curran of Pasqua North.

Our citizens feel highly pleased with their prospects of the new road, and feel in great sympathy with their losses, the Regina citizens.

Miss Jennie Allison is visiting friends at Broadview.
